

# RTS Hand Sanitizer

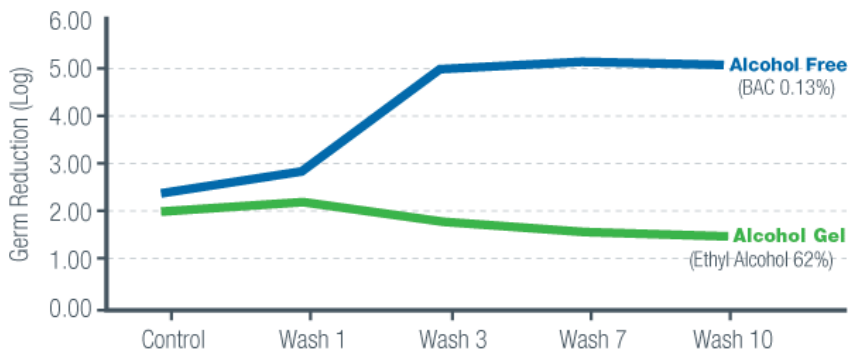

RTS Retail

**Alcohol free, fragrance free, and residue free foaming formula.**

**KILLS 99.9% of germs that cause disease.**

Alcohol FREE foam is more effective than alcohol-based gels. Alcohol-based gel hand sanitizers (62% Ethyl Alcohol) actually become less effective after only the third application. The reason: alcohol removes natural protective oils and dries out the skin as it evaporates, causing microscopic cracks and crevices. As the skin becomes drier and more damaged, dangerous germs remain trapped within the cracks and fissures. See these results below:

Source: J Am Podiatr Med Assoc 91(6): 288-293, 2001 © 2008 X3 Labs Inc. All Rights Reserved | TM Reg'd X3 Labs Inc.

Contains 0.13% Benzalkonium Chloride.

When compared to gel sanitizers, X3 Clean provides 3 times as many applications per ounce.

Non flammable and non toxic formula. Will not dry or irritate delicate skin.

Reduce absenteeism by up to 30%. Clean hands lead to fewer lost-time illnesses.

Easy installation and refill dispensers in seconds.

APPROVED – DIN 02290855
